HOW YOUNG CHILDREN SHOW US THEY NEED HELP

When problems last more than one month, happen more often, or are stronger than would be expected given the child's age.

Please check number of instances below.
Continued Problems with Body Functions
Sleeping
Feeding or eating
Potty training or going to the bathroom
Easily Upset by Noise, Touch, Smells, Tastes, Open or Busy Spaces
Serious Developmental Delays
Speech
Motor
Social skills
Exploration and play
Frequent Health Problems (e.g. illness, aches, asthma)
Young children often show distress through their bodies, which can lead to health problems. See your doctor for all health concerns.
Emotional Difficulties
🔲 Often angry, irritable
Tantrums (stronger and longer than others their age)
Sad, cries a lot, hard to comfort
Overly worried or scared
Serious problems separating, overly clingy
Overly quiet, shy, shut-down
CPP Symptom Screener
